

Planning a Wellness Day?

Or

Require HIV Training/Awareness for staff?

You may like to consider the following:

- Over 400 000 new HIV infections occurring in 2012, South Africa ranks first in HIV incidence in the world.
- The proportion of South Africans infected with HIV has increased from 10.6% in 2008 to 12.2% in 2012.
- The total number of infected South Africans now stands at 6.4-million; 1.2-million more than in 2008. (Those that have tested and we know of).
- SA unlikely to achieve its target of a 50% reduction in new HIV infections by 2016.
- South Africa uses 20% of the World's ARV's
- 99 000 Pregnancies of these 77 000 Abortions Age Group 10 – 14 years and mostly HIV+
- 1000 - New infections daily

SOUTH AFRICA, we are doing something wrong!

It affects us all, jeopardising the growth of our country and limiting a healthy, productive workforce.
