06 & 07 May 2015 | Sica's | Durban | South Africa

**Delegate Fee: R5 300.00**

NPO 093-243

It is our pleasure to invite you to attend a workshop to train those involved in all aspects of HIV & AIDS Training & Awareness Management. (See detailed Programme- separate attachment)

The workshop aims to build up each participant's overall understanding and update on present trends of this important area of HIV management.

The workshop will be based on documents published during the year of 2014.

It is the aim of the organisers that each participant will be able to receive a copy of the programme to assist with their preparation for participation in and follow-up after the workshop. Manuals will be distributed during the workshop.

The workshop will use interactive teaching techniques and each participant will be encouraged to participate from the basis of his or her own field experience and insights.

We hope that each participant will bring with them a case study on fieldwork they have been involved in related to a matter they wish to resolve, supported by any materials available such as file content/ material of their matter (names withheld).

In addition to learning and skills development the workshop will provide a valuable opportunity for those involved in this to meet and encourage each other. It will be a time to think and work on projects, time set aside from the ordinary demands of life. It is hoped that it will also be a time for participants to recuperate so as to be able to return to their work with new energy.
